#### **Measures to prevent the spread of cholera and other diseases during the 2025 tobacco marketing season**

The Health Ministry has outlined the following measures to be taken as ways to prevent the spread of cholera and other diseases during the 2025 tobacco marketing season;

1. Increased provision of portable safe water at selling points and awareness to farmers on the importance of drinking safe water.
2. Provision of adequate sanitation facilities at all selling points, including toilets.
3. Provision of minimum hygiene conditions for hand washing facilities with water and soap
4. Food preparations should not be done in open spaces and hygiene monitoring of on-site food preparations should be done.
5. There is coordination between TIMB and all local authorities during the sales and ensure there are health workers educating and updating health measures to avoid any contamination.
6. Continued routine solid waste management should be done at the selling points in liaison with the local authorities.

All stakeholders are requested to align their activities with these measures and TIMB will consistently ensure observance of these conditions.
